

*Note: All consultations are covered by MSP for BC residents with a valid BC Care Card and referral.*

## Fertility Assessments

### Male Fertility Assessments

• Sperm profile with detailed morphology (count, motility, morphology, antibodies - if applicable)	\$325
--	-------

### Female Fertility Assessments

• All consultations and most blood tests*	No Charge (with BC Care Card and referral)
• Anti Mullerian Hormone (AMH)*	\$85
• Initial ultrasound for ovarian reserve (Antral Follicle Count)	No Charge (with BC Care Card and referral)
• Saline Infusion Sonogram (SIS) + Hysterosalpingogram-contrast-sonography HyCoSy conducted by REI	\$475

\*Blood tests not performed onsite; Grace Fertility can provide requisition forms

## Treatments & Solutions

<b>Ovulation Monitoring</b>	\$350
-----------------------------	-------

### Intrauterine Insemination (IUI) and Natural Cycle Monitoring

• IUI using Ovulation Predictor Kit (OPK) only	\$900
• IUI with ultrasound monitoring	\$1,250

*Medications and OPK's are not included and can range from \$40 - \$200.*

### IVF

• IVF Cycle (includes orientation, egg retrieval, blastocyst culture, fresh embryo transfer, and additional embryo freezing)	\$11,500
• IVF Cycle + ICSI	\$13,450
• IVF Cycle + MESA/TESA sperm (excludes MESA / TESA lab procedure fee)	\$13,950

*Medications are not included and may range from \$5,000 - \$7,000.*

• Embryo freezing	\$850
• Embryo storage for 6-months	\$375
• Non-BC resident fee without diagnostic ultrasound	\$650
• Non-BC resident fee with diagnostic ultrasound	\$1,000

### Frozen Embryo Transfer (FET)

• Frozen embryo transfer	\$3,100
--------------------------	---------

*Medications are not included and are between \$1,000 - \$2,500.*

### Andrology

• MESA / TESA lab portion procedure (includes freezing)	\$2,450
---	---------

## Innovative Enhancements

### Pre-implantation Genetic Testing (PGT-A and PGT-SR)

• PGT-A set-up & coordination fee	\$1,000
• Embryo biopsy	\$500 per embryo
• Genetic lab fee (paid directly to genetic lab)	\$195-\$310 per embryo

### Embrace

• Embryo set-up & coordination fee	\$500
• Embrace sample collection	\$300 per embryo
• Genetic lab fee (paid directly to genetic lab)	\$260 per embryo

### NIPT (Non-Invasive Prenatal Testing)

• Basic panel	\$550
• Extended panel	\$850

## Donor & Surrogacy Solutions

• Surrogacy / gestational carrier screening (includes consultation, HyCoSy) - to be added onto frozen embryo transfer cost	\$2,375
• Egg donor screening	Please call for information
• Egg donor IVF cycle (with use of 1 intended parents genetic material. Does not include embryo transfer)	\$12,900

*Medications for egg donor are not included and may range from \$5,000 - \$7,000.*

## Egg, Sperm, and Embryo Freezing

### Egg Freezing

• Egg freezing (includes orientation, egg retrieval, egg freezing and immediate shipping to long-term storage)	\$9,400
--	---------

*Medications are not included and may range from \$5,000 - \$7,000.*

• Egg thaw, fertilization, and embryo transfer	\$7,900
--	---------

### Sperm Freezing

• Sperm freezing (includes handling and immediate shipping to long term storage)	\$950
--	-------

### Embryo Freezing

• Embryo freezing	\$850
• Embryo handling fee	\$500
• Frozen embryo storage price (6-Month)	\$375
